

Übungen zu den Einmaleinsreihen 5, 7 – 2. Übung

Rechenschlangen rückwärts:

Trage die Ergebnisse der 5er-Reihe rückwärts ein!

Trage die Ergebnisse der 7er-Reihe rückwärts ein!

Schreibe die Tausch- und die Umkehraufgabe und rechne aus!

Beispiel:

$6 \cdot 7 = 42 \rightarrow 7 \cdot 6 = 42 \rightarrow 42 : 7 = 6$

$5 \cdot 7 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$8 \cdot 5 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$7 \cdot 5 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$4 \cdot 7 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$9 \cdot 7 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$7 \cdot 7 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$3 \cdot 7 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$4 \cdot 5 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$1 \cdot 7 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$2 \cdot 7 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$3 \cdot 5 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$6 \cdot 5 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$2 \cdot 5 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$9 \cdot 5 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$

$8 \cdot 7 = \underline{\quad} \rightarrow \underline{\quad} \cdot \underline{\quad} = \underline{\quad} \rightarrow \underline{\quad} : \underline{\quad} = \underline{\quad}$
